Daily Weather Forecast Distribution

Friday 24 April 2026

Issued at 1700 LST

General Situation

The high-pressure system from China, is expected to covers the Northeast of Thailand and the South China Sea while hot to very hot weather occurs over the upper country. Outbreaks of summer storm are possible following with thunderstorm, gusty wind, hail and isolated heavy rains including lightning strikes in some areas of the upper country. People in the upper country should beware of severe conditions by keeping off outdoor places, big trees and unsecured billboards. Farmers should prevent for crop damage and animals danger.

The easterly and southeasterly winds prevail over the Gulf, the South and the Andaman Sea with isolated thundershowers in the South. The wind and waves in the Gulf are expected about 1 meter high and above 1 meter high in thundershowers. All ships should keep off thundershowers.
